

## Satellites: Evidence of Change

1. Examine the first Landsat image.

- What do you notice?

---

---

---

---

- What do you think this image is?

---

---

---

2. Examine the second Landsat image.

- What do you notice?

---

---

- How does this image compare to the first image?

---

---

- What story might this series of images tell?

---

---

### Tips for Interpreting a Satellite Image

- Look for a scale
- Look for patterns, shapes, and textures
- Define the colors (including shadows)
- Find north
- Consider your prior knowledge

3. Examine the third Landsat image.

- What do you notice?

---

---

- What do you think this image is?

---

---

4. Examine the fourth Landsat image.

- What do you notice?

---

---

- How does this image compare to the third image?

---

---

- What story might this series of images tell?

---

---
